NORTH BAY GOLF & COUNTRY CLUB

This year, we are entering our 102nd year as the Club. Established in 1921, our members should be very proud to belong to one of the oldest clubs in Northern Ontario.

The Club is a private club owned by shareholders and governed by an elected Board of Directors. In 1921, a group of golf enthusiasts formed the NBG&CC and had engaged Stanley Thompson the renowned Canadian designer to layout the new course on what was once farm land originally owned by the Macintosh family. Prior to Thompson's involvement, it was said these enthusiasts, despite no formal golf course had "hit the ball" along this pastureland for many years prior to 1921.

Designed by Stanley Thompson, one of the classic figures of North American golf course, Thompson had a flair for features on a massive scale. He was not averse to sculpting the earth along vast dimensions in search of generous playing areas and diverse angles of approach. Consistent with his designs of boldly shaped layouts and breathtaking courses the Club was designed using many of the land's natural terrain.

Once formally established as a private club, the next step was to form the body of directors to oversee the operation. The first president of the NBG&CC was Senator George Gordon and the first club professional hired was George Smail.

The original nine holes spanned 2800 yards and were ready for play in 1923. The second nine did not open until 1966. With seasonal renovations, and a strong commitment from members giving of their labour, resources and donations the course has evolved into one of the finest eighteen hole challenges in the North.

For the golfer, water comes into play on at least 13 of the 18 holes and first time players often comment on the individuality presented by each hole the 6300 plus yard, par 72 layout. The play demands well placed shots instead of the long ball.

TEE TIMES

All Tee Times may be booked two days in advance with a maximum of two tee times per call. Golf will be regulated by the principle that we make the best possible use of the golf course. The Pro Shop / Starters reserve the right to implement the following practices:

- **Singles or twosomes will be placed with other members to fill out a foursome.**
- **Tee times made with dummy names and no shows will be recorded and if this is a reoccurring practice appropriate action will be taken against the offending Member.**
- The Pro Shop staff will have complete starting time control. Members and guests must register with the Pro Shop prior to teeing off during Pro Shop hours.
- Golfers should be ready to play 15 minutes prior to their booked tee time.

GOLF ETIQUETTE

In all private golf clubs there are a number of rules of etiquette and procedures which should be observed by each member for the benefit of the membership as a whole. Listed below are a few of the important rules each member should be aware of and adhere to.

Damage to Green or Tee Deck – If a green or tee deck is damaged by a member/guest it must be reported to the proshop immediately. Subsequent discipline will be administered by the PGA of Canada Professional. If (an) individual(s) does (do) not report the incident and he/she is found guilty of this damage, an immediate suspension will be given (length to be determined).

Repair Ball Marks on Greens – A properly repaired ball mark will heal in three days. If not properly repaired within one half-hour, it will take approximately five weeks to heal. There is only one way to properly repair a ball mark. First, that little ball divot that may be taken out of a green when a ball lands, if replaced will not grow; throw it away. Second, when making a repair, lift any turned down grass up, then work from outside the pitch mark in towards the centre. Do not dig up the centre, this will leave a patch of mud or bare earth. If in doubt of the repair method, ask your Golf or Greens staff for a demonstration.

Replace All Divots Taken Out of the Turf – Divots not replaced exactly as taken, and not pressed into place, will leave damage to the turf. Take care to replace the divot so that it fits the divot hole properly.

Golf Shoe Marks on the Greens – Do not drag or pivot your feet on the greens; this tears and damages the turf.

After putting out, any noticeable marks should be tapped down with your putter head, especially near the cup.

Flag Sticks – When removing or replacing a flagstick, take care not to damage the turf. Place the flagstick either on the green, green apron or off the green.

Rake Sand Traps – All holes in traps should be raked smooth. This not only includes foot prints, but also the mark made from the ball entering the trap and the mark made by the club head when hitting the ball from the trap. **Rakes should be left inside traps.**

Power Carts – **must not be driven within 25 feet of greens and tees and should remain on paths or roadways as much as possible; in all cases avoid roped off areas, soft spots, seeded areas, ditches. This includes medical exemptions.** Avoid fast starts and obey cart directional signs. The course Superintendent and the Director of Golf determine when carts may be used without causing undue damage to the course.

Pull Carts – under no circumstances are to be taken through bunkers, between bunkers and the putting surface, onto the tees or within 25 feet of the greens.

Please be patient with our grounds Maintenance Personnel, particularly while they are cutting the greens. If the pin is out during cutting please wait until it is replaced to proceed. Hitting into our staff, as hitting into anyone is very dangerous.

DRIVING RANGE AND PRO SHOP

The driving range, putting and chipping greens are there for the members' use.

Range balls are not to be removed from the driving range. Under no circumstances are range balls to be used on the golf course.

Proper practice methods, which limit damage to the teeing and practice areas, should be followed. Please consult the Pro Shop for advice.

HOLE-IN-ONE

If you score a Hole-in-One, advise the Pro Shop.

YOUR CLUB

Pay special attention to emails from Senior Management regarding all Golf and Social Events.

Club policies are put in place so that one person or group is treated equally. Such policies require constant refinements and are subject to change from time to time. As a member your input is essential in aiding the Board of Directors to keep our Club functioning. Members having suggestions or criticisms concerning the affairs or operation of the Club should advise the Board in writing.

NORTH BAY GOLF & COUNTRY CLUB'S "ADOPT A HOLE" PROGRAM

In order to increase the playability and enjoyment of our great course we require the co-operation and participation of all our golfing members. To that end, our Club is initiating an "Adopt A Hole" program.

HOWEVER, THIS PROGRAM IS NOT DESIGNED TO RELIEVE EACH GOLFER OF HIS/HER RESPONSIBILITY TO FIX BALL MARKS, PROPERLY RAKE BUNKERS AND PICK UP BROKEN TEES AND GARBAGE ON ALL HOLES.

The holes have been assigned alphabetically with consideration to the number of traps etc on each hole. We ask you to take special pride in the condition of your hole by doing the following:

- Throw broken and discarded tees in the garbage or rough
- Pick up any garbage you see
- Replace any poorly replaced or loose divots while walking on the fairway
- Check the bunker sand rake any poorly or unraked bunkers. Proper raking requires 2 hands.
- Fix any and all ball marks on the greens while you are waiting to putt

Your Director of Golf and Superintendent thank you for your co-operation.
